Read the passage carefully. Then answer all 5 questions using details from the text.

Watching Bread Dough Rise

The class mixed flour, warm water, yeast, and salt.

Ms. Park divided the dough into two equal balls.

One ball rested in a warm place near the oven.

The other ball rested on a cool windowsill.

After thirty minutes, the warm dough was much larger.

The cool dough had grown only a little.

The class recorded that warmth helped the dough rise faster.

Questions

Return to the passage and write a short, text-based answer for each item.

1. Which four ingredients did the class mix?

2. How did Ms. Park divide the dough?

3. Where did the first dough ball rest?

4. What happened to the cool dough?

5. What did the class record?
