

Grade 3 Reading Comprehension Easy Worksheet Set 010

Grade 3 · Reading Comprehension · Easy

Name: _____ Date: _____

Read the passage carefully. Then answer all 7 questions using details from the text.

Weather Notes from the School Entrance

Dina set up a weather station at the school entrance before class on Friday.

A thermometer hung in the shade, away from brick walls and direct sunlight.

The rain gauge stood on level ground where no roof or tree could block falling rain.

At nine o'clock, the thermometer read 52 degrees Fahrenheit.

The wind vane pointed west, and a ribbon showed a steady breeze.

No rain had collected, so the class entered zero rather than leaving the box blank.

Dina checked the units beside every number before posting the chart.

The class planned to compare readings taken at the same time for five school days.

Questions

Return to the passage and write a short, text-based answer for each item.

1. In "Weather Notes from the School Entrance", where was the weather station set up?

2. In "Weather Notes from the School Entrance", where did the thermometer hang?

3. In "Weather Notes from the School Entrance", why was the rain gauge placed away from a roof or tree?

4. In "Weather Notes from the School Entrance", what temperature was recorded at nine o'clock?

5. In "Weather Notes from the School Entrance", which direction did the wind vane point?

6. In "Weather Notes from the School Entrance", what value did the class record for rain?

7. In "Weather Notes from the School Entrance", for how many school days would the class compare readings?

Answer Key

Each answer below is supported by a sentence in the passage.

1. school entrance	2. in the shade
3. no roof or tree could block falling rain	4. 52 degrees Fahrenheit
5. west	6. zero
7. five school days
