

Grade 3 Reading Comprehension Standard Worksheet Set 032

Grade 3 · Reading Comprehension · Standard

Name: _____ Date: _____

Read the passage carefully. Then answer all 7 questions using details from the text.

An Energy Check in the Computer Lab

On Tuesday, Fatima's class began an energy check in the computer lab.

The students listed 9 lights or devices that used electricity during one lesson.

They used a timer to collect a reading without changing any settings.

Next, the class switched off unused equipment and waited ten minutes.

A second reading was lower, while the room remained bright enough for students to work.

Fatima marked both readings on a bar graph with matching units.

The class proposed a reminder card beside the door for the last person leaving the room.

Their teacher approved a one-week trial before the class would measure again.

Questions

Return to the passage and write a short, text-based answer for each item.

1. In "An Energy Check in the Computer Lab", where did the class conduct the energy check?

2. In "An Energy Check in the Computer Lab", how many lights or devices were listed?

3. In "An Energy Check in the Computer Lab", which tool did the students use?

4. In "An Energy Check in the Computer Lab", what did the class do before taking the second reading?

5. In "An Energy Check in the Computer Lab", what happened to the second reading?

6. In "An Energy Check in the Computer Lab", how did the class display the readings?

7. In "An Energy Check in the Computer Lab", how long would the reminder-card trial last?

Answer Key

Each answer below is supported by a sentence in the passage.

1. computer lab	2. 9
3. timer	4. switched off unused equipment and waited ten minutes
5. a second reading was lower	6. on a bar graph with matching units
7. a one-week trial
