

Grade 3 Reading Comprehension Standard Worksheet Set 038

Grade 3 · Reading Comprehension · Standard

Name: _____ Date: _____

Read the passage carefully. Then answer all 7 questions using details from the text.

A Water Check at Willow Stream

Bella met the science team at Willow Stream on Wednesday morning.

The team filled 6 labeled jars with water from two marked sampling spots.

They used pH strips to collect one measurement from each jar.

A clean white card helped the students compare how clearly they could see through the samples.

One jar looked cloudier than the others, so the team tested it a second time.

Bella recorded every result in a table before the group left the bank.

The repeated test matched the first reading and ruled out a copying mistake.

The team planned to return after a rainy day to compare the new readings with this baseline.

Questions

Return to the passage and write a short, text-based answer for each item.

1. In "A Water Check at Willow Stream", where did Bella meet the science team?

2. In "A Water Check at Willow Stream", how many labeled jars did the team fill?

3. In "A Water Check at Willow Stream", which tool did the team use for measurements?

4. In "A Water Check at Willow Stream", what helped the students compare water clarity?

5. In "A Water Check at Willow Stream", why did the team test one jar again?

6. In "A Water Check at Willow Stream", where did Bella record the results?

7. In "A Water Check at Willow Stream", when did the team plan to return?

Answer Key

Each answer below is supported by a sentence in the passage.

1. Willow Stream	2. 6
3. pH strips	4. a clean white card
5. one jar looked cloudier than the others	6. in a table
7. after a rainy day
