Name: _____ Date: _____

Read the passage carefully. Then answer all 8 questions using details from the text.

Restoring a Wetland Path

Heavy winter rain washed loose soil across a popular wetland walking path.

Park workers closed the muddy section to protect visitors and nesting birds.

Volunteers carried gravel in buckets from a trailer near the entrance.

They spread a thick gravel layer over strong woven fabric on the ground.

A carpenter repaired two wooden rails beside the narrowest section.

Students planted native grass along the edges to hold the soil in place.

By late afternoon, the restored path was level, firm, and clearly marked.

The park reopened the section after a safety inspection the following morning.
