

Grade 4 Reading Comprehension Easy Worksheet Set 034

Grade 4 · Reading Comprehension · Easy

Name: _____ Date: _____

Read the passage carefully. Then answer all 8 questions using details from the text.

Photographing Moon Phases

On Thursday, Rina joined a project at the school observatory to record moon phases.

The team labeled 6 observation points so every result could be traced to its source.

They used a tripod and observation log and recorded the units beside each measurement.

Two students checked every entry before the group compared the results.

Their first comparison showed that clouds blocked two scheduled photographs.

The group kept an unexpected result in the table and repeated that measurement instead of discarding it.

Based on the evidence, Rina proposed that the team add written observations on cloudy nights.

The team saved its method, dates, and raw observations so another group could repeat the investigation.

Questions

Return to the passage and write a short, text-based answer for each item.

1. In "Photographing Moon Phases", where did Rina work on the project?

2. In "Photographing Moon Phases", what was the project's goal?

3. In "Photographing Moon Phases", how many observation points were labeled?

4. In "Photographing Moon Phases", which tool did the team use?

5. In "Photographing Moon Phases", how did the students reduce recording errors?

6. In "Photographing Moon Phases", what did the first comparison show?

7. In "Photographing Moon Phases", what next step did Rina propose?

8. In "Photographing Moon Phases", why did the team save its method and raw observations?

Answer Key

Each answer below is supported by a sentence in the passage.

1. school observatory	2. record moon phases
3. 6	4. a tripod and observation log
5. two students checked every entry	6. clouds blocked two scheduled photographs
7. add written observations on cloudy nights	8. so another group could repeat the investigation
