

Grade 5 Reading Comprehension Easy Worksheet Set 013

Grade 5 · Reading Comprehension · Easy

Name: _____ Date: _____

Read the passage carefully. Then answer all 8 questions using details from the text.

Preserving a Historic Recipe Book

During late spring, Gabriel joined a study at the regional archive to preserve a handwritten recipe book.

The team marked 14 samples with dates and locations so later comparisons would use the same evidence.

Researchers collected observations with a humidity gauge and acid-free supports and wrote the measurement conditions beside every result.

Before drawing a conclusion, the group checked unusual values and repeated one observation with a second reader.

The combined evidence showed that brittle pages curled when the room became too dry.

Because one comparison alone could not explain every difference, the team recorded a limitation in its report.

After discussing that limitation, Gabriel recommended that the group stabilize the room before scanning the pages.

The final report linked each claim to its source data so another team could evaluate the reasoning.

Questions

Return to the passage and write a short, text-based answer for each item.

1. In "Preserving a Historic Recipe Book", where did Gabriel join the study?

2. In "Preserving a Historic Recipe Book", what was the study designed to do?

3. In "Preserving a Historic Recipe Book", how many samples did the team mark?

4. In "Preserving a Historic Recipe Book", which tools or records supported the observations?

5. In "Preserving a Historic Recipe Book", how did the group check an unusual value?

6. In "Preserving a Historic Recipe Book", what did the combined evidence show?

7. In "Preserving a Historic Recipe Book", what action did Gabriel recommend?

8. In "Preserving a Historic Recipe Book", why did the report link each claim to source data?

Answer Key

Each answer below is supported by a sentence in the passage.

1. regional archive	2. preserve a handwritten recipe book
3. 14	4. a humidity gauge and acid-free supports
5. repeated one observation with a second reader	6. brittle pages curled when the room became too dry
7. stabilize the room before scanning the pages	8. so another team could evaluate the reasoning
